- An effort to use or control Anonymous or use its members in any way. *You guys know your totally uncontrollable anyway!*

We are likely to make lots of typical new cultural mistakes with the Anonymous group and ask your patience.

Reforming Scientology

Sharing Ideas on
what to do, how to
do it and why to do it.

What Reforming Scientology Means to Factnet

- Having Scientology's top executives and lawyers face Criminal charges so that finally real change can take place within Scientology!
- Having all victims of Scientology's human rights abuse receive full financial restitution to help restore and repair their lives!
- Stopping the advanced mind control experiments going on secretly within Scientology to prevent a "*beyond Orwell's 1984*" scenario from occurring due to the spread of this powerful control technology.

How Can this be Done? Part 1.

- Through the secure collection, analysis and compilation of all critical debriefings from former Scientology members and executives, which would then be given to government prosecutors around the world to bring credible criminal charges against senior scientology executives and involved lawyers.
- What is needed to be done to make that happen?

How Can this be Done? Part 2.

- Assist and support current ex scientology members or other harmed critics or parties in bringing individual lawsuits against Scientology before their statute of limitations runs out to bring their lawsuit.
- While not merging good individual lawsuits into class action lawsuits, assist and support current ex scientology members or other harmed critics or parties in joining new winning class action lawsuits against Scientology that do not negate their separate individual lawsuits on different causes of action.

How Can this be Done? Part 3

- Continue to support & expand the creative, fun protests/education about the Scientology's human rights abuses and Scientology's advanced mind control experiments by winning the online and off-line information access battle so both the general public AND its own members know everything that Scientology is trying to hide!
- Win the search engine the filtering software battles.

How Can this be Done? Part 4

- The Scientology Celebrity “Show up or Shut up” Oprah style face your cult’s victims media challenge!
- Protest every Scientology Celebrity movie or media appearance!
- The Reverse Brigham Young Miscavige Twist. AKA the let’s inspire Scientology’s own members to remove the most senior executives and lawyers!

How Can this be Done? Key Part 5

- Support everyone in the networks.
- Have fun! Be creative and unpredictable! Show the hierarchal Pros what super-creative & bright, highly motivated, P2P networked Joes can really do!
- Sharing information, knowledge and experience in secure ways when applicable.
- Always refusing to be controlled by fear and intimidation --- Scientology's only real weapon!

How Can this be Done? Key Part 6

- Trust that the right information and the right talent will show up at the right times.
- Don't make it personal! Scientology members have been subjected to the most sophisticated and advanced mind control technology and experiments in the history of humanity.
- Learn from the power changing examples of Gandhi and Mandela.

How Can this be Done? Key Part 7

- Seek to reform vs. destroy. Here's are some very good *practical reasons* why ---beyond all the logical moral or ethical reasons.
- 50 smaller fragmented cults are more difficult, more dangerous than one defanged, large cult.
- Pushing for destruction activates the “burn the retreat boats” fight to the bitter end survival mechanisms... Very, Very Unsafe & Unwise!

How Can this be Done? Key Part 8

- Factnet will offer to host and oversee the super secure ex-member debriefings, analysis and compilations and get them to government prosecutors worldwide.
- Factnet will distribute a series of video training tapes covering successful ex member lawsuit strategies as well as how to effectively handle Scientology's covert operations. These tapes will be based on the combined experience of the most successful information that has been gathered by Factnet's staff and allies over the last 28 years.

What does this all imply?

- Nothing and everything! You get to decide on whether to collaborate and play or, not to with whatever piece(s) or challenges that most interest you.
- One non-hierarchical network of independent, self organizing, open sourced, peers is faster, smarter and stronger than any traditional hierarchy in solving problems and correcting abuses.

Epilog...

- In the classic line of a classic computer movie: “***Do you want to play a game?***”
- ...A very worthwhile, high stakes game that will bring out both the finest and highest creative potentials within each of us to...
- Co-create a major win for society, a win for each of us and a life enhancing win for the current and former members of the world’s most destructive cult.
